53 WHAT'S NEW**YOUR PARTNER IN PATIENT SAFETY**

For over 20 years, we've specialized in providing tailored sedation and emergency solutions.

Our mission is simple: reliable products, competitive pricing, and expert support to help your practice succeed.

OUR COMMITMENT TO YOU:

We're dedicated to providing dependable service, essential products, and solutions to support your practice.

Your success is our priority.

We're proud to celebrate 20 years of supporting the sedation community and look forward to our continued partnership with you.

WE KNOW MONITORS

Edan Patient Monitors are designed for dental professionals across all specialties, providing vital signs measurements such as ECG, SpO₂, blood pressure, heart rate, and capnography. Capnography plays a critical role in monitoring respiratory function during sedation, enhancing patient safety. With a user-friendly interface and high accuracy, these monitors deliver reliable performance and peace of mind for both practitioners and patients.

CONFIDENCE THROUGH MONITORING

Bring confidence to your practice with monitors designed for reliable, seamless operation—offering all the essential features you need for patient care and peace of mind:

Capnography

Respiratory function is monitored through capnography, helping to detect early signs of breathing issues under sedation and enhancing patient safety throughout procedures.

Customized

Our preprogrammed monitors let doctors plug in and start monitoring instantly.

All-Inclusive Features:

- ECG, NIBP, SpO₂, Heart Rate, Respiration
- ST and ARR Arrhythmia Analysis
- Capnography
- Touch Screen Display
- On-screen Shortcuts
- External Display via VGA
- Integrated Printer
- Battery for portability
- Direct Customer Support

CONFIDENT MONITORING

The Sedation Stethoscope® is an essential tool for sedation practitioners. It provides a window to the airway—delivering clear, amplified breath sounds—for continuous, real-time monitoring. Providers have the ability to detect airway changes early to respond quickly. Its Bluetooth® connectivity enables mobility while maintaining seamless monitoring at all times, keeping your focus on patient safety and care. Enhance your sedation procedures with the Sedation Stethoscope®!

Hands-Free, Wireless Mobility

Experience freedom of movement with Bluetooth® connectivity and up to 18 hours of continuous operation.

Enhanced Airway Monitoring

Hear amplified sounds in real-time to identify changes and respond appropriately to maintain patient safety.

21-100-01S

Includes rechargeable amplifier, Bluetooth® headset, Piezo chest piece cable, backup earbuds, rechargeable batteries, 20 double-sided adhesive discs, USB charger, and A/C charger.

***Must Confirm Compatibility**

Piezo Chest Piece

A weighted chest piece with a built-in microphone produces diagnostic quality sound and reduces ambient noise.

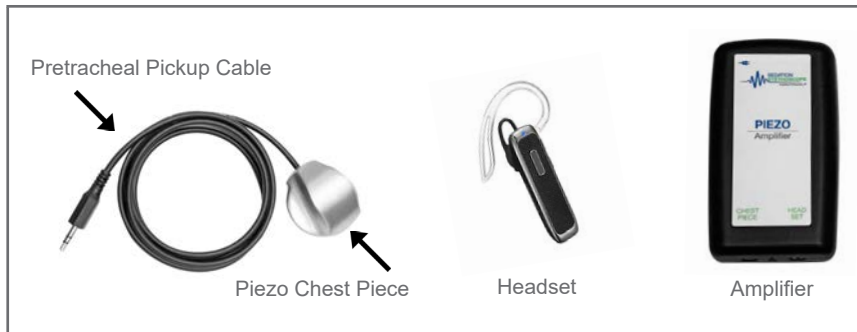

The Piezo Chest Piece can be placed at the pretracheal notch with a double-sided adhesive disc.

Pretracheal Pickup Cable

The Pickup Cable is pre-attached to the Chest Piece and is plugged into the Chest Piece port on the amplifier.

Avoid pulling cable away from chest piece during cleaning. Instead, clean cable moving cleaning cloth toward the chest piece. Like other electronic cables, it is best to loosely coil the pretracheal pickup cable for storage.

Bluetooth Headset

The included Bluetooth headset provides 18 hours of continuous use, high quality sound, and has a range of approximately 33 ft/10 m.

It is only necessary to charge the headset until the indicator light is off. Overcharging can deplete its useful life.

Amplifier

The compact amplifier is easy to use, provides outstanding amplified sound, and has integrated Bluetooth technology. A built-in charging port makes recharging the 1000mAh Ni-MH batteries a breeze. For best performance, replace batteries every 6-9 months (item 21-AAAR).

The amplifier is fully charged when the green light goes off or in approximately 1 1/2 to 2 hours. Charging the unit overnight is not recommended.

AccuVein® Vein Visualization System

Laser Precision for Reliable Access

- AV500 uses advanced laser technology for clearer, more accurate vein visualization, even in darker skin tones and with various body types

Permanent Alignment

- Utilizes True Center™ Technology to keep it permanently aligned, without need for recalibration

Portable, Lightweight, Easy to Use

- Has 3 brightness settings and inverse color setting
- Includes Desktop Charging Cradle for continuous charging
- Stand and adjustable arm are available for purchase

6-AV500

Improve the patient experience and avoid delays
or cancellations in sedation cases due to
venous access challenges!

DENTAL

Simulation Specialists

Hands-on scenario management training with emergency simulations in a dental office

Simulate a real life emergency without a patient

We are proud to be endorsed by the American Association of Oral and Maxillofacial Surgeons (AAOMS) to offer an AAOMS Office-Based Emergency Airway Management (OBEAM) Equivalency Course.

Experience the gold standard of in-situ simulation for yourself, your assistants, and your staff. Evaluate and refine your team's readiness to handle an office emergency.

ZOLL

Empowering you to help save lives®

ZOLL AED 3

The **ZOLL AED 3**® defibrillator is equipped with Real CPR Help® to aid rescuers in performing high-quality CPR, with feedback and guidance regarding compression depth and rate. It utilizes the Uni-padz®, a universal pad designed to treat both adult and pediatric patients. It features a large, color touchscreen and is powered by a 5-year smart battery. The AED 3® has an impressive 8-year warranty, with registration.

ZOLL AED PLUS

The **ZOLL AED Plus**® defibrillator also utilizes Real CPR Help® technology, empowering rescuers to deliver high-quality CPR with visual and audio prompts. It connects to CPR-D-Padz® and Pedi-Padz II® electrodes. Its Passive Airway Support System, durable design, and long-lasting lithium batteries make it ideal for multiple environments. The AED Plus has a 7-year warranty, with registration.

NIO® Intraosseous Kits

When you need immediate vascular access, you can be confident that the NIO is complete and ready to use. The NIO is an automatic intraosseous access device packaged for quick, safe, and easy vascular access. No drills. No batteries. No assembly.

Kit Includes:

- NIO Intraosseous Device
- GO Start Kit (alcohol pads, extension set, 3-way stopcock, IV strap, patient bracelet)
- Chloraprep
- IV flush

6-601-15 NIO Adult® Kit 15G Needle

6-601-18 NIO Pediatric® Kit 18G Needle

ARROW® EZ-IO® Set (available to dental professionals only)

The EZ-IO® enables safe, simple, and speedy access to the patient's circulatory system when IV access is difficult or impossible. The EZ-IO® can be used to establish stable and secure vascular access in less than 10 seconds - for both alert and unconscious children and adults.

Set Includes:

- G-3 Driver
- Two EZ-IO® Needles (adult & pediatric sizes available)
- Soft Carrying Case

6-601-00 Two Adult Needles (15 gauge sterile 25 mm EZ-IO® Needle)

6-601-13 One Adult and One Pediatric Needle (15 gauge sterile 25 mm EZ-IO® Needle and 15 gauge sterile 15 mm EZ-IO® Needle)

Arrow® EZ-IO® Needle + Stabilizer Replacement Kit includes:

- An adult or pediatric EZ-IO® needle (based on order)
- EZ-Stabilizer® Dressing
- EZ-Connect® Extension Set
- NeedleVISE® Sharps Block
- Pink patient wristband
- Kit has a 4-year shelf life and is not made with natural rubber latex

6-9001P Adult

6-9018P Pediatric

Simulation Toolkit™

Ordering

Our Customer Service Team is available weekdays 8 am - 4 pm CST.
Place orders by phone, fax, email, or online.

Shipping

Order online 24/7!
SedationResource.com

- Orders are typically processed and shipped within 1 business day.
- Shipping charges are based on method of shipment, weight, and destination.
- Special shipping services are available upon request (*additional charges will apply*).
- We do not ship orders COD.
- International order expenses (*such as insurance, duties, and shipping*) are the responsibility of the customer.
- Urgent orders must be submitted by 10:30 am CST.

Return Request

Submit your return request from the **Contact Us** link on our website or give us a call for a Returns Materials Authorization (RMA).

- All returns are subject to approval.
- Products must be returned unused, in their original packaging, and in sale-able condition.
- Any returns after 30 days from invoice date are subject to a 20% restocking fee.
- Sterile products cannot be returned.
- Special order items and/or items that are noted "non-returnable" may not be returned.
- All refunds are subject to a 5% processing fee, except in cases of defective items or fulfillment issues.

Damages:
Claims for missing or damaged items must be reported within 48 hours. Upon receipt of shipment, inspect cartons for any visible damage. If any parcel is visibly damaged, do not accept it. If damage is noticed subsequently, notify the carrier immediately.

Shortages:
Check your packing slip to ensure the item(s) have not been backordered. When reporting, please have the packing slip and original packing materials available.
